

3Rs Membership Eligibility

Membership to 3Rs is open to any public or nonprofit private and charter schools that teach students in grades pre-k through high school between the hours of 7:30 a.m. to 3:00 p.m. These schools must provide in person instruction in all of the core curriculum subjects, including ELA/literacy, math, science, health/PE, history/social studies and other core subjects.

Programs not eligible for membership to the Teacher Store:

Adult Education programs	For profit institutions	Programs that operate exclusively online
After school or summer/vacation programs	Home school individuals or groups	Sunday Schools
Any "school" or group that does not teach the full curriculum listed above		

Preschool programs, including Head Start are eligible if they meet the following criteria:

- The primary purpose of the program is to prepare children to attend kindergarten. The program must focus on teaching the children the core subjects listed above for academic success. In other words, the program is not simply providing day care services to preschool aged children.
- The program serves children ages from 2 up to 5 years.
- If the program shares space with another organization or program, the supplies obtained at 3Rs may only be used in the preschool classroom during regular preschool hours. For example, if the preschool is housed in the same building as a community center, the supplies may not be used for other programs sponsored by the community center, including after school care.
